Categories - Action Pattern and Enhanced Action Pattern

You can group Action Patterns into Categories for better organization of the action patterns within Manitou. The following is a recommended category listing for Manitou.

- 01 - Fire Actions
- 02 - Medical Actions
- 03 - Panic/Holdup Actions
- 04 - Burglary Actions
- 05 - Fire Supervisory Actions
- 06 - General Trouble and Supervisory Actions
- 07 - Open/Close Actions
- 08 - System Actions
- 09 - Video Actions
- 10 - Post Processing Actions
- 97 - Multi-Use Actions
- 98 - Pre-production Actions
- 99 - Evaluation Actions

This allows the assignment of action patterns within their appropriate categories.

Create Action Pattern categories

- Launch the **Supervisor Workstation**
- **Navigate** to the **Subtypes** form - Found under the Maintenance Menu then Setup and Subtypes.
- **Add** the applicable groups.
- **Save**.

Applying the Categories to Action Patterns

When creating new Action Patterns users may choose the category under which it will reside.

To move existing Action Patterns into a Category

1. Open the **Action Pattern** in the appropriate record.
2. Click **Edit**.
3. Click the **Arrow** to navigate to the Action Pattern Details.

4. **Select** the appropriate Group.
