

Receivers

The **Receivers** Master File report returns the available receivers in Manitou.

The screenshot shows the 'Receivers' report interface. At the top, there is a title 'Receivers' and a subtitle 'Receivers.'. Below this, there are two progress indicators: 'MAIN' and 'DISTRIBUTION'. The main content area is divided into two columns. The left column has a header 'Title' with the value 'Receivers' and a 'Priority' of '6'. Below this is a 'From' field with the value '0' and a 'To' field with the value '0'. The right column has a header 'Receiver codes:' and a checkbox labeled 'Show Receiver Line Map'. Below these are two lists: 'FEPs:' with the value 'FEP' and 'Receiver codes:' with the values 'ALARMCOM', 'SUREVIEW', and 'ALARMNET'. At the bottom of the interface, there are navigation buttons: 'PREVIOUS', 'NEXT', 'DISPLAY NOW', 'DOWNLOAD (PDF)', 'DOWNLOAD (RTF)', and 'SEND EMAIL'.

Report Parameters

- **Receiver Number** - Allows the selection of specific receiver ID, or range.
- **FEP** - Allows the selection of the available Front End Processors to filter the report.
- **Receiver Codes** - Allows the selection of the Codes applied to the Receivers.
- **Show Receiver Line Map** - Includes the Receiver Lines and Prefixes assigned to them.
