Report Parameters

- **Customer ID** - Filters which customer, or range of customers to include in the report results. Please note, that the report server searches the database numerically if you are searching for a range.
 - **Customer Name** - Filters the report results based on the name, or range of names of a customer. This is rarely used alone and will load with the customer name values after selecting the Customer ID.
 - **Dealer ID** - Filters results based on which dealer, or range of dealers, to include.
 - **Branch ID** - Filters results based on which branch, or range of branches, to include.
 - **Group Code** - Filters the report results based on which **Group code**, or range of codes, applied to accounts, to include.
 - **Class Code** - Filters the report results based on which **Class code**, or range of codes, applied to the accounts, to include.
-
- **Transmitter Type** - Selects the Type, or types, to include in the report results.

- **Group by** - Determines how the report results combine.

Options

The Options allow for the selection to include the customer details and filter by the Monitoring Status.
