

Filtering the Alarm Queue

Last Modified on 10/30/2023 5:10 pm EDT

Filtering of the alarm queue should only be done under the direction of a Supervisor or Manager!

This article steps through how to filter the Alarm Queue should the need arise.

1. Load the Alarm Queue.
2. Click the Filter  Icon.
3. Select the filter parameters.
4. Click Done.

To remove the Alarm Queue Filter, click the remove filter icon.
