UL Monitoring Layout

If UL monitoring is a requirement for your operation, create a custom UL layout as follows:

1. On the **Home** page, click **Edit** then **Add Layout**.

2. Create a new layout for UL requirements, for example, *UL Tracking*.

3. Click **Select Details** for the layout. The **Select Data** card appears.

4. Select the **Health** option.

5. Select options from the **Health Specification** drop-down list and configure these options per your UL requirements.
