Removing a Control Panel from a Dealer

1. Click the Pencil (✎) icon to the right of the Selected Control panels.
2. Select the control panel to add to the Dealer.
3. Click the right arrow to move the selected panel to the Available Panels.
 - It is also possible to **move all** by using the double arrow icon.
4. When all in place as desired, click **Done**.
5. **Save** (💾) the Record.

There is no need to add any Control Panels to a Dealer if all Control Panels are available to the Dealer.
