

SWS - Forms in the Report Menu - System Reports - System Reports - Raw Data Log

Last Modified on 08/05/2024 3:42 pm EDT

Perform the following steps to generate a Raw Data Log Report:

1. Navigate to the Reports menu, and select "System Reports".

Result: The "System Reports" Navigation Tree displays as shown in the following screenshot:

2. Click the "System File" Navigation Tree Node.

Result: The System File section of the Navigation Tree expands as displayed in the following screenshot:

3. Double-click "Raw Data Log".

Result: The "Raw Data Log" form displays as shown in the following screenshot:

The screenshot shows a software interface for generating a "Raw Data Log" report. On the left is a navigation tree with categories: Activity, Custom, Maintenance, Master File, and System. Under "System", various reports are listed, with "Raw Data Log" highlighted. The main window is titled "Raw Data Log" and contains the following fields:

- Report Description: Raw Data Log
- Priority: 6
- From: 12/27/2013 00:00:00
- To: 12/27/2013 23:59:59
- Date
- Rec Line Prefix: [Dropdown menu]
- Transmitter ID: [Text input field]

4. If you want, apply either of the following parameters to your Raw Data Log Report:
 - Receiver Line Prefix
 - Transmitter ID
5. The "Date" checkbox displays as preselected. If you want to run your Report by date, enter the date and time parameters.
6. Click "Next".

Result: The Distribution Tab displays as shown in the following screenshot:

7. For instructions on distributing your Report, refer to the "System Reports" document.
