

# Manitou Web Client - QR - Alarm Handling - Filtering the Alarm Queue

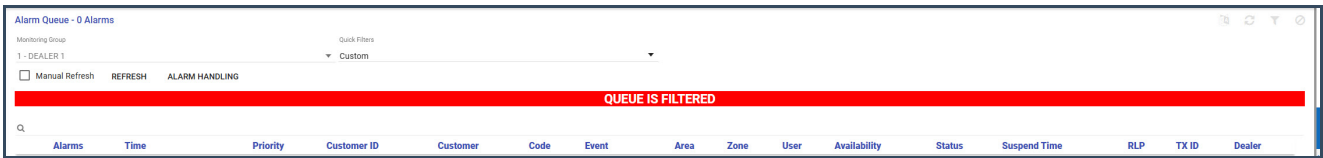

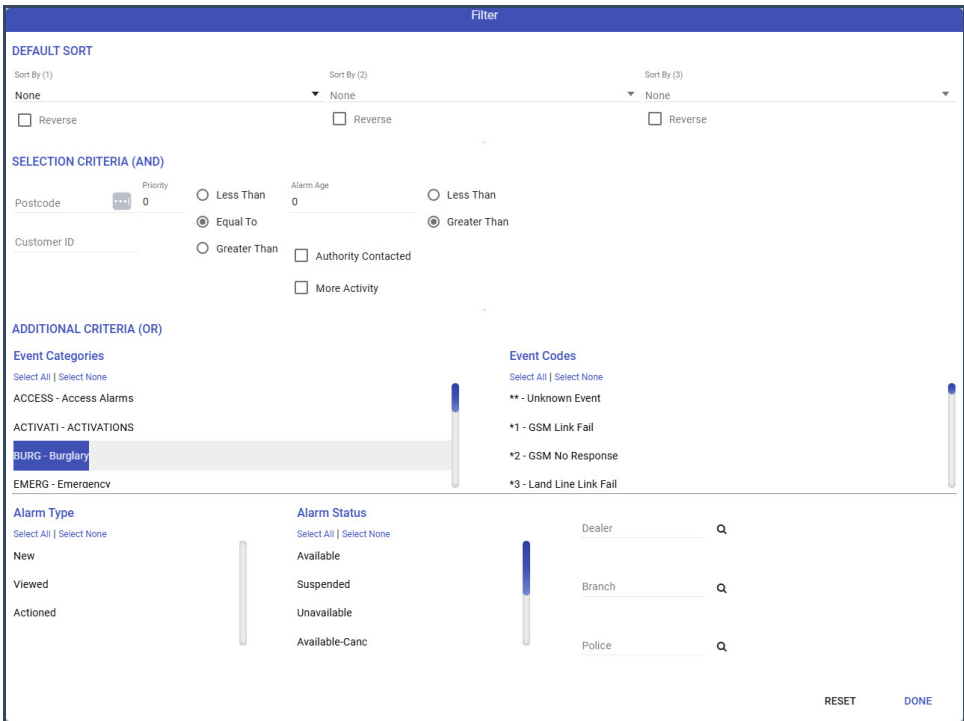

**\*\*Filtering of the Alarm Queue should only be done under a supervisor or manager's direction!\*\***

This article steps through how to filter the Alarm Queue, should the need arise.

1. Load the Alarm Queue.
2. Click the Filter icon.

3. Select the filter parameters.
4. Click Done.

To remove the Alarm Queue Filter, click the remove filter icon.
