GPS Tracking

The **GPS Tracking** form is available on the **Customer**, **Dealer**, and **Monitoring Company** records. These display the GeoFences and Groups.

Adding a Group and a GeoFence

1. Navigate to the GPS tracking form on the Customer, Dealer, or Monitoring Company record.
2. **Click the Plus sign** (▯) to the right of the GeoFences and Groups
3. Add the Group for the GeoFence by Selecting **Group** and Entering the **Group Name.**
4. Click **Done**.
5. **Click the Group name**.

6. **Click the Plus sign** (▯) again.
7. Enter a name for the **GeoFence**.
8. **Choose the type of Shape** - Polygon or Circle.
9. If assigned to a specific Area, **select the Area ID**.
10. **Set the Max Speed,** if tracking a unit's speed.
11. **Choose the Alarm Condition**.
    - **Entry** - Alarm is triggered by entering the fenced area.
    - **Exit** - Alarm is triggered by exiting the fenced area.
    - **Cross** - Alarm is triggered by entry or exiting the fenced area.
12. When all is entered as expected, click **Done**.
13. **Draw the GeoFence**.
14. **Save** (▯) the record.
