Zone Status

Q

Event	Description	TX	Area	Zone	Status Type	Status	Date/Time
-------	-------------	----	------	------	-------------	--------	-----------

The Areas and Zones form, within the customer record, contains three cards.

- **Areas** - These are the groups containing communication zones at the monitored location.
- **Zones** - The monitored devices at the location.
- **Zone Status** - Displays any unrestored zones.

Visit the [data entry guides](#) for adding and editing these in Manitou.
