Dashboard after Working in Manitou

Users may clear any of the recent items as desired by clicking the eraser icon.

The Standard Dashboard also contains statistics related to the Manitou Database including, Counts, Customer Statuses, Transmitter Statuses, and a graph showing the breakdown of the accounts.

The upper right corner of the Statistics frame allows the selection of customers based on if they have no Dealer or they have no Branch.

Users may also download these images for their use in local reporting or to annotate the details of the breakdown.
