## Application Corrections

Resolved Issues
<b>SIMS III - ASAP -&gt; PSAP Broken In Latest Build</b> <p>We resolved an issue where the ASAP&gt;PSAP was not functioning as expected and was no longer finding the authority contacts. This was caused by GlobalIDs being stored incorrectly in the database. The ASAP&gt;PSAP will now find the Authority information with the correct GlobalID.</p>
<b>SIMS Global Phone Number Edit Object Reference Error: v 3.2.10.3131</b> <p>We corrected the behavior of editing Global Contacts so that they will now save and update as expected without errors.</p>
